

# CLEVER SOFTWARE TO HELP MANAGE BUSY BOARDS

Governance360 provides simple to use tools that help **volunteer and startup boards**, as well as their **executive teams, manage risk and improve process** so they can focus on their outputs.

Founded by a **chartered accountant** who saw first hand the **pain points of volunteer boards**, Governance360 **helps accountants and consultants improve** their **service offering** by supporting their **clients achieve compliance** and better governance.

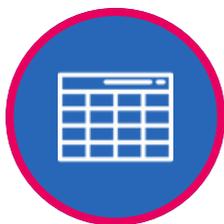

**Make client management easier** by providing your customers with access to an **easy-to-use** platform that helps them **understand and manage risk** and **action registers**, as well as providing them with **CPD accredited board training**. This all comes in a Board Portal that's **excellent value for money**.

The Governance360 platform is made up of **four core features**:

## BOARD PORTAL

Provide clients with a workflow tool that helps them manage, structure and circulate Board papers, policies and documents.

## RISK REGISTER

Help clients understand risk and compliance with an easy-to-use risk register wizard that helps them keep on top of risks.

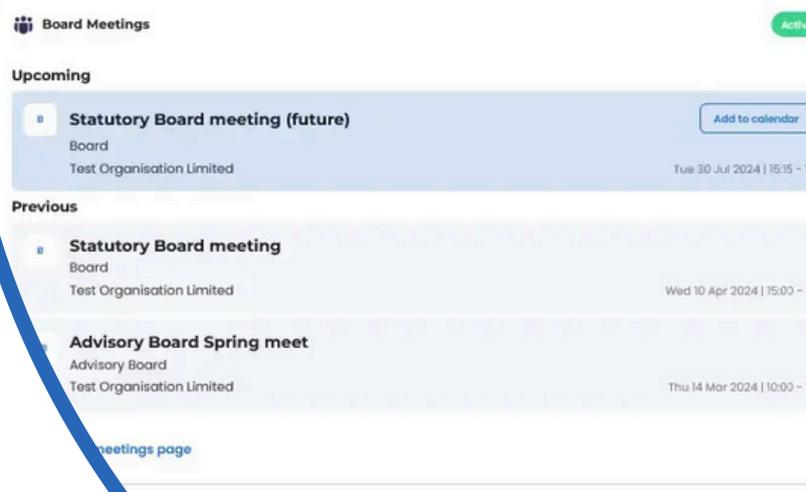

## ACTION REGISTER

Ensure client boards understand their responsibilities with an action register that includes task management tools and easy reporting.

## BOARD ACADEMY

Support your clients efforts to upskill their board with access to CPD accredited training modules built by practitioners for the real world.

***"We've been using the Governance360 board portal since the start of the pandemic to manage our board meetings and processes. It has helped us be more efficient, more process-driven and customer service has been fast and efficient."***

**Part-time Company Secretary**  
LEADING REGIONAL CHARITY

I worked as a Chartered Accountant for many years and had the privilege of sitting on many private and charity boards, so I know first hand the pain points of time (and sometimes experience) poor boards and how they can effect the delivery of accountancy services.

Combining my experience of risk and compliance management as an accountant and my experience sitting on volunteer boards I created Governance360, an easy-to-use platform that was designed to help clients understand their responsibilities and requirements to manage risk and become compliant.
